

Please, DO NOT dilute the intent of the "Do Not Call" program. It is an absolute pleasure to not have to come home to a myriad of solicitations, slick-tongued salesman, guilt-serving peddlers looking for donations and all the other interuptions to my eve and weekend. I dare say, that our senior population is also protected from fast talking callers that end up bilking them out of house,home & funds. Do not put them in greater jeopardy!
